

LightWave Solar, LLC is the leading solar electric system design and installation company in Tennessee, designing and installing residential and commercial solar PV systems across the Southeast. We believe that rapid integration of solar and other renewable energy sources into the conventional electricity grid is both inevitable and absolutely vital to creating a more secure and sustainable world.

We are currently looking for a **PV Installer**. In this position you will be reporting to the Project Manager and working with a team of other PV Installers on residential, commercial and utility-scale solar PV installation projects throughout Tennessee and in bordering states. **Solar experience is strongly preferred but not required.**

Our employees are our biggest assets, and we believe that their commitment, support and dedication are the key to the success of our business. We offer a competitive compensation package with outstanding benefits. You will be part of a very enthusiastic and dynamic team of over 30 people. Our business is growing rapidly, and we are looking for people who are interested in growing with us. This is a great opportunity to work in a booming industry.

PRIMARY RESPONSIBILITIES

- On site design implementation – working off of plans and schematics.
- Layout of solar modules / array.
- Mechanical/structural mounting of racking, modules and electrical equipment.
- Assembly of mounting hardware.
- AC and DC Electrical wiring of systems.
- Attic work in homes and businesses to verify structural attachment.
- Pre-assemble job components in the warehouse.
- Maintain a clean warehouse, truck and work site.
- Perform system service as required

KNOWLEDGE AND SKILL REQUIREMENTS

- Experience with electrical wiring in residential or commercial applications.
- Experience in mechanical installations, general construction and ladder work.
- Good knowledge of the NEC Code, AC and DC electrical systems, and Universal Building Codes.
- General understanding of common building materials and techniques (i.e. lumber, roofing materials, etc.).
- Previous foreman or team leader experience.
- Good communication and customer service skills and experience.
- Experience with all types of hand-held and power tools, as well as small machinery (trenchers and bobcats).
- Experience mounting to all types of building materials — var. roof types, stucco, wood, concrete, Uni–strut, etc.
- Disciplined, self–motivated work style.
- Desire to stay on the leading edge of the renewable energy industry.
- H.S. Diploma, two-year degree in technology/industrial arts preferred.
- Valid driver’s license.

APPLICATION REQUIREMENTS

- To minimize paper waste, we request that all candidates e-mail their resumes. Only resumes with a cover letter will be considered. References will be checked for final candidates. No phone calls please.
- Send e-mail to jobs@lightwavesolar.com.
- LightWave Solar is an Equal Opportunity Employer, offering health, dental, life, vision, disability, long term care insurance, 401k and paid time off. Compensation is based on experience.
